

COUNCIL OF PRESIDENTS OF MEDICAL COLLEGES

Medical Training System Review Project Team

The project will investigate the impact COVID-19 has had on the system of medical training and thus be able to inform further development of the NMWS. The training pipeline from medical school through the pre-vocational and specialist training space along with impact on trained specialists (upskilling) will be examined, analysed, and policy options provided.

Commencement: September 2020
Conclusion: within twelve months
